SKILLS Ruby, Rails, RSpec, Lisp, JavaScript, D3, React, Flux, SQL, Git, LaTeX, CSS3, Z-Shell

---

EDUCATION

App Academy *Summer 2016*

- React/Flux on Rails training, < 3% acceptance, 1K hours of instruction and coursework
- Object-oriented programming, TDD, pairing, algorithms and data structures

Massachusetts Institute of Technology *2009–2014*

- Ph.D. Candidate, A.B.D., Department of Linguistics and Philosophy
- Published "Algebraicity and Implicit Definability in Set Theory" with Joel David Hamkins in current issue (57.3) of *Notre Dame Journal of Formal Logic*
- Research-level set theory, recursion theory, model theory, proof theory, many-valued and higher-order logics, real analysis, rational-choice theory

Stanford University *2005–2009*

- B.A. with Honors and Distinction, Department of Philosophy, GPA 3.87
- Biennial Suppes Award for Excellence in Philosophy, 2009
- Research assistantship, mathematical logic, analytic philosophy

---

PROJECTS

Iff*Not* | Rails, React, Flux Live | GitHub

RESTful web application for technical Q&A among professional logicians

- Streamlined user experience through live rendering of mathematical markup
- Simplified voting procedure using polymorphic associations in Rails backend

Regexy | JavaScript, React Live | GitHub

Single-page JavaScript game for teaching regular expressions

- Protected against potential browser crash by sanitizing user input
- Delivered assistive feedback with on-the-fly syntax highlighting

AmznAlytics | JavaScript, D3 Live | GitHub

Responsive visualization of your Amazon Order history

- Engineered extensible script to compute statistics from Amazon CSV reports
- Customized interactive SVG visualizations with JavaScript's D3 library

---

WORK HISTORY

Hospitality Professional | Drink (Boston, MA) *2013–2016*

- Achieved lead role at celebrated restuarant owned by James Beard Award winner
- Coordinated with 10 teammates to serve 300 guests nightly for $10K in sales

Teaching Assistant | Massachusetts Institue of Technology *2010–2013*

- Selected courses: Paradox and Infinity, Logic I, Moral Problems and the Good Life

Research Assistant | Ctr. for Study of Language and Information/Stanford *2008–2009*

- Analyzed contemporary social-psychology publications on 'presence' in virtual reality
- Delivered regular briefs to head researcher, culminating in summary monograph
